## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of claims 12-16 and 27 in the reply filed on January 4, 2008 is acknowledged. The traversal is on the ground(s) that there is no undue burden on the examiner. This is not found persuasive because the examiner would need to conduct a class 198 search for the non elected claims, but not for the elected claims.

The requirement is still deemed proper and is therefore made FINAL.

This application contains claims 12-16 and 27 drawn to an invention nonelected with traverse in the reply filed on invention. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 17-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 17 recites the limitation "said support piece" in the last line. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Hill USP 5,409,280.

See the attached marked up copy of drawing sheet 1 of 3 of Hill depicting the claimed features.

7. Claims 24-26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP abstract 10-250838. (as cited by applicant, see claw 19 with slit going from front to back of claw).

***Allowable Subject Matter***

8. Claims 1-11 are allowed.

9. Claims 20-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
